WORK EXPERIENCE

Fullstack Javascript Developer

Human Decode | Apr. 2021 - Present

- Successfully developed and delivered high-quality features for three MVP projects within project timelines.
- Demonstrated technical proficiency in estimating user stories, mitigating risks, conducting thorough unit testing, and performing code reviews.
- Facilitated effective communication with technical and non-technical stakeholders, including direct client interaction.
- Contributed to a positive work environment through knowledge sharing in internal tech talks.

Web UI Developer

Globant | Jan. 2020 - Apr. 2021

- Contributed to large-scale projects for a Big 4 company, ensuring compliance with rigorous security and work ethics standards.
- Collaborated closely with BAs and UX designers to deliver seamless solutions.
- Mentored junior developers, fostering their growth and development.
- Thrived in high-pressure environments, consistently meeting demanding deadlines.

Technical Scrum Master

Nemo S.A. | Dec. 2017 - Dec. 2019

- Transitioned to Technical Scrum Master, facilitating Agile processes for the team and occasionally supporting others.
- Successfully balanced technical tasks while dividing workload to ensure efficient project delivery.
- Resolved conflicts, fostering open communication and positive team dynamics.
- Delivered metrics and reports to the CTO, providing valuable project insights.

Fullstack Engineer

Nemo S.A. | Dec. 2016 - Dec. 2019

- Developed end-to-end features for the company's flagship product, ensuring high-quality deliverables.
- Created and implemented microservices to enhance internal metrics and improve legacy products.
- Proficiently worked across the full stack, utilizing diverse technologies and frameworks.
- Collaborated with cross-functional teams, including product management and UX, to deliver user-centric solutions.

Freelance Developer

Self employed | Sep. 2015 - Dec. 2016

- Specialized in serving local clients as a freelance developer, delivering tailored fullstack web solutions and collaborating closely to ensure successful project outcomes.
- Demonstrated expertise in both front-end and back-end development, adapting solutions to meet client needs and requirements.
